

**IN'FLECTOR<sup>®</sup>**

*The See Through Radiant  
Barrier Window Insulator*

Orange Loft Condominiums, 2008, Calgary, Alberta

Orange Lofts in Calgary is a leader in window energy efficiency. Their ability to research, and identify the windows as the weakest part of the building envelope, and then solve the issues of heat gain and heat loss makes them pioneers in window efficiency. Installing "In'Flector" see through radiant heat barrier window insulators stabilized interior temperatures, restored comfort, provided natural light, while still providing the view.
